INTRODUCTION TO THE CAPITAL BUDGET AND FIVE YEAR CAPITAL PROGRAM

Capital Planning Process

Westchester has had a formal five-year capital program planning process in place since the adoption of the County Charter in 1939.

Section 167 of the County Charter provides: "Not later than May 1st of each year the head of each department, institution, office and agency of the County government shall furnish to the Budget Director, the County Planning Board, and the Capital Projects Committee, detailed estimates of any capital projects which the head of such department, institution, office or agency believes should be undertaken within the next five fiscal years."

To this list of capital requirements the County Planning Board may add other capital projects which it believes should be undertaken within the next five years. Beginning in May, the Planning Board prepares recommendations regarding the physical planning aspects of each proposal however originated. Not later than the tenth day of September, the Planning Board submits to the County Executive, to the Budget Director and the Capital Projects Committee its recommendations.

A nine-member Capital Projects Committee is responsible for reviewing departmental requests and proposing the Five Year Plan. It is uniquely suited for this task by virtue of its composition. The Chairman of the Committee is the County Executive. Representing the legislative branch of the County government are the Chairman of the Board of Legislators and the Chairman of the Committee on Budget and Appropriations. County fiscal and physical planning are represented, respectively, by the Budget Director and the Commissioner of Planning. Finally, the three operating departments most involved in Capital expenditures are represented by the Commissioner of Public Works, Commissioner of Environmental Facilities, and Commissioner of Parks, Recreation and Conservation. The Commissioner of Finance acts as financial advisor to the committee and the County Attorney acts as legal counsel.

In proposing a five-year capital plan, the Capital Projects Committee considers the feasibility of all proposed capital projects, evaluating their necessity, priority, location, cost and method of financing, availability of Federal and State Aid and the necessary investment in the County's infrastructure.

An executive committee has strengthened the review process by an in-depth analysis of the impact of the Capital Program on cash flow and bonding requirements, as well as the County's ability to finance, process, design and ultimately maintain projects. The committee staff meets regularly throughout the year to monitor project progress.

INTRODUCTION TO THE CAPITAL BUDGET AND FIVE YEAR CAPITAL PROGRAM

Upon completion and adoption, the Five Year Capital Program becomes a guiding framework for the Budget Director, the County Executive, the County Board of Legislators and the Commissioner of Finance with respect to bond sales, investment planning, and project planning by the Departments.

The County Executive is responsible for recommending the County Capital Budget for action by the Board of Legislators as part of the overall County Budget. He is assisted in this task by the capital plan, the report of the Planning Board on the physical planning aspects of each proposed capital project and the Budget Director's recommendations. The County Executive must submit a Capital Budget along with the report of the Capital Projects Committee to the County Board of Legislators not later than November 15.

The County Board of Legislators takes the final action of adopting the Capital Budget as part of the overall Budget. Before acting, the Board receives a report from its committee on Budget and Appropriations which may include proposed changes in the Budget. The Board holds a public hearing (or hearings) on the estimates contained in the proposed Capital Budget supplemented by the Committee on Budget and Appropriations' memorandum of recommended changes.

The Board may amend the proposed Capital Budget as presented by the County Executive after complying with certain procedures and subject to certain limitations. The Board of Legislators must adopt the Capital Budget as part of the overall County Budget for the ensuing year no later than December 27. The County Executive has item veto power over additions made by the Board. A two-thirds vote of all members of the Board is required to override the County Executive's veto.

Capital and Debt Policies

- Capital Projects as originally defined by the Westchester County Charter are expenditures for:

  Any physical betterment or improvement or any preliminary studies and surveys relative thereto.

  The acquisition of property of a permanent nature.

  The purchase of equipment for any public improvement or betterment when first erected or acquired.

- Where capital expenditures are made for property they are for the purpose of acquiring parcels and buildings which may be designated "parkland" or parcels and buildings to be designated "general purpose".

INTRODUCTION TO THE CAPITAL BUDGET AND FIVE YEAR CAPITAL PROGRAM

Properties designated “parkland” have been evaluated using the Parks and Open Space Policy guidelines developed and endorsed by the Planning and the Parks, Recreation and Conservation Boards.

Properties designated as “general purpose” are not encumbered by state laws controlling uses for parkland. Such properties may include office buildings, land to serve as buffers to existing County facilities, etc.

- Priority is given to projects of a life-safety nature.

- Where there has been a major deterioration of an existing capital asset, a capital expenditure will be considered if it restores and/or increases the original net worth of the asset. This is distinguished from normal annual maintenance expenses (e.g., lawn maintenance, or pavement striping) or non-recurring repairs (e.g., roof patching), both of which should be provided for in current operating budgets and financed by current revenues.

- A bond act in excess of $10 million for a project, with certain exceptions as defined by law, must be approved at public referendum pursuant to New York Local Finance Law Section 33.10.

- Projects financed by debt are to be amortized over their probable useful life as defined in state law. The County reserves the right to issue bonds for these projects for less than the allowed useful life.

- Capital project progress is monitored throughout the year and related cash flow requirements provide the Commissioner of Finance with the basic information for the timing of bond sales during the year. Other factors influencing the timing of these sales are general economic conditions, interest rates, the timing of other governmental borrowings (federal, state, etc.)

- Bond Anticipation Notes are to be used to provide funds for those capital projects which will require cash resources prior to notes being sold. These notes should have maturities of less than a year and should be converted to long-term debt.

- Bond Anticipation Notes may also be used to provide interim financing of capital projects when market conditions are not favorable for the issuance of long term bonds. In the event that Bond Anticipation Notes are issued for this purpose, provision should be made in the succeeding year’s operating budget to pay down the equivalent first year’s amortization which would have been paid if bonds had been issued instead of the Bond Anticipation Notes. The timing of this first payment may be changed pursuant to provisions of state law.

INTRODUCTION TO THE CAPITAL BUDGET AND FIVE YEAR CAPITAL PROGRAM

- Advance Planning Bonds may provide funds for planning costs associated with future capital projects. These bonds (or bond anticipation notes) may be used to finance the preparation of surveys, preliminary plans and detailed plans, specifications and estimates necessary for planning and design of a future capital improvement. This would enable the County to fully comply with the mandates of the State Environmental Quality Review Act. It conforms to required procedures that authorizes financing for environmental reviews, project scoping, and other related planning expenses in one stage, followed by subsequent authorization of financing for full project costs in the second stage, after completion of such reviews. It permits advancement of funds from cash on hand to these projects in order to complete studies, etc., with the intention to subsequently amend the Act and provide for bonding to cover full project costs. Advance Planning Bonds would be retired in five years. Amortization payments, to the extent possible, are scheduled to be made in each fiscal year after the second payment of County real property taxes in order to minimize impact on cash flow.

- Amortization payments, to the extent possible, are scheduled to be made in each fiscal year after the second payment of County real property taxes in order to minimize impact on cash flow.

The following chart reflects:

- The proposed capital budget by charter-defined category of expenditure.

CAPITAL GLOSSARY

ADOPTED BUDGET	The budget plan for the next fiscal year which has been formally approved by a majority vote of the County Board of Legislators.
ALLOCATION	A control process which draws funds from the project appropriation to the specific sub-account(s) where expenditures will be incurred (i.e., engineering, construction, etc.)
APPROPRIATION	An authorization granted by the Board of Legislators to make expenditures and to incur obligations for a specific project. Appropriations are limited in amount.
BANS (BOND ANTICIPATION NOTES)	Short-term notes issued by a governmental unit, usually for capital projects, which are paid off prior to the issuance of long-term bonds.
BOND ISSUE	A general term referring to borrowings of local governmental subdivisions such as village, county, etc. Written evidence of the obligation to repay a specified principal at a certain date with interest.
BOND REFERENDUM	A process whereby the voters of Westchester are given the opportunity to approve or disapprove a proposed issue of municipal securities. County Charter requires a public referendum when the amount of the proposed bonding for a project is in excess of $10 million.
BOND COUNSEL	An attorney-specialist that provides legal advice to insure that the County is authorized to issue proposed bonds, and has met all legal and financial requirements.
CAPITAL BUDGET	The annual spending plan for major physical improvements and construction projects, generally having a useful life of Five (5) years or more. It provides project details, project priority ratings, costs and funding source(s). The Capital Budget is a portion of the total County Budget for the coming fiscal year. It represents the first year implementation of projects in the five-year Capital Program. It is paid for by County bonds, cash to capital, and non-County or non-District Shares (federal or state aid, or private shares).

CAPITAL GLOSSARY

CAPITAL PROGRAM	The five-year program for major physical improvements and construction projects. The Program is determined by criteria evaluating the need, scope and fiscal impacts of the proposed projects. The first year of a Capital Program becomes the proposed Capital Budget for the next fiscal year.
CAPITAL PROJECT	Major projects requiring the expenditure of public funds, over and above annual operating expenses, for the purchase, construction or replacement of physical facilities or other fixed assets of the community. Capital projects are normally large-size, costly, have a long useful life (i.e., 5-40 years), are bondable, and are fixed in one specific location. As a general rule, equipment is not capitalized except where, as incidental to a new building, for example, original furnishings are provided. In certain instances, however, where individual items of equipment are over $100,000 they may be capitalized as is the case with heavy motor equipment and high tech lab equipment.
CASH TO CAPITAL	An appropriation in the operating budget that partially supports the Capital Budget. Where projects have been bonded and final costs exceed total bond authorizations, these overruns are generally “cashed up” as well. Together with debt service these payments are funded by the operating budget.
COUNTY OR DISTRICT SHARE	The amount of funding required from general County revenues (i.e., property or sales taxes), after all revenue sources attributed to operations of a department or division are subtracted from total appropriations or expenditures. The County share is funded by cash to capital and/or the issuance of bonds.
NON COUNTY OR DISTRICT SHARES	Funding for the Capital Budget provided from other than County resources: State or Federal Aid or grants, e.g., for sewer and water districts, airport projects; municipal contributions, e.g., road projects; or private shares, e.g., parking projects. For airport appropriations, the term used is “Non-Airport Special Revenue Shares”. For district appropriations, the term used is “Non District Shares”.
DEBT LIMIT	The New York State Local Finance Law limits the amount of indebtedness that a county can contract for any purpose or in any manner, including existing indebtedness, to 7% of the full real estate valuation (average last five years). The full real estate valuation is established by the State.

CAPITAL GLOSSARY

DEBT SERVICE	The principal and interest payments for obligations incurred by borrowings to finance capital projects. These payments are similar to mortgage payments on a home. Funding for these payments is included in the operating budget.
EARNINGS ON INVESTMENTS	This represents the interest earned on the investment of funds borrowed for capital projects. Such borrowed funds are invested until they are needed to pay project costs. The income from the temporary investment of funds is a function of both prevailing interest rates and the amount of cash available for investment. Interest use is restricted to debt retirement, and interest earnings are regulated by the Internal Revenue Service.
ENCUMBRANCE	An obligation in the form of a purchase order, contract or other commitment which is chargeable to an appropriation subaccount and for which a part of that appropriation is reserved prior to incurring the liability and prior to the actual expenditure of funds.
ENVIRONMENTAL REVIEW	The generic term for environmental procedures and review required under State law before any agency of local government carries out, funds or approves an “action”. Actions include physical activities such as construction; planning and policy making which commit the agency to a definitive course of future actions; and acts such as adoption of rules, regulations, local laws, codes, ordinances, executive orders and resolutions that may affect the environment.
EXPENDITURE	An actual cash outlay for the acquisition or betterment of a capital asset.
RESERVE FOR BONDED DEBT--“CAPITAL RESERVES”	When funds borrowed for a capital project exceed the final project cost, the balance must be applied to retirement of debt on the project. If there is no remaining project debt, the balance can be applied to the County’s annual operating cost with legislative approval. This revenue varies considerably from year to year depending on the number of capital projects completed and the balances remaining in the projects closed out.

2014 MEMBERS OF THE CAPITAL PROJECTS COMMITTEE

Honorable Robert P. Astorino, County Executive (Chairman)

Honorable Michael B. Kaplowitz, Chairman, County Board of Legislators

Honorable Sheila Marcotte, Chairwoman, Committee on Budget and Appropriations, Board of Legislators

Lawrence C. Soule, III, Budget Director

Edward Buroughs, Commissioner of Planning

Jay Pisco, Commissioner of Public Works and Transportation

Thomas Lauro, Commissioner of Environmental Facilities

John McCaffrey, Chief Information Officer

Kathleen O'Connor, Commissioner of Parks, Recreation and Conservation

MEMBERS OF THE CAPITAL PROJECTS EXECUTIVE COMMITTEE

Honorable Robert P. Astorino, County Executive

Honorable Michael B. Kaplowitz, Chairman, County Board of Legislators

Honorable Sheila Marcotte, Chairwoman, Committee on Budget and Appropriations, Board of Legislators

Lawrence C. Soule, III, Budget Director

Edward Buroughs, Commissioner of Planning

Jay Pisco, Commissioner of Public Works and Transportation

EXECUTIVE COMMITTEE STAFF

Christine A. Sculti, Chief Advisor, Government Operations

Lorraine M. Yazzetta, Senior Budget Analyst

Patrick Natarelli, Chief Planner

Robert Abbamont, Program Coordinator (Capital Planning) and Staff

Edward J. Hoffmeister, Secretary to the Capital Projects Committee

PURCHASE OF VOTING MACHINES
(BEL01)

User Department : Board of Elections

Managing Department(s) : Board of Elections ; Public Works ;

Estimated Completion Date: TBD

Planning Board Recommendation: Project without physical planning aspects of concern to the Westchester County Planning Board.

FIVE YEAR CAPITAL PROGRAM (in thousands)

	Est Ult Cost	Appropriated	Exp / Obl	2015	2016	2017	2018	2019	Under Review
Gross	4,000	4,000	2,377						
Non County Share									
Total	4,000	4,000	2,377						

Project Description

Purchase of Voting Machines as stipulated in the Help America Vote Act (HAVA).

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the Operating Budget is the debt service associated with the issuance of bonds. In addition, as the maintenance and storage of the voting machines will be the responsibility of the County, there will be a need to have a facility in which to store the machines, as well as, personnel to maintain. This will result in either rental costs or debt service to purchase and rehabilitate an existing building, in addition to the increased personnel costs.

Appropriation History

Year	Amount	Description
2006	4,000,000	Purchase of voting machines - COMPLETE
Total	4,000,000

REPLACEMENT OF COUNTY CLERK IT SYSTEMS
(BCC04)

User Department : County Clerk

Managing Department(s) : County Clerk ; Information Technology ;

Estimated Completion Date: TBD

Planning Board Recommendation: Project without physical planning aspects of concern to the Westchester County Planning Board.

FIVE YEAR CAPITAL PROGRAM (in thousands)

	Est Ult Cost	Appropriated	Exp / Obl	2015	2016	2017	2018	2019	Under Review
Gross	2,425	2,425	2,067						
Non County Share									
Total	2,425	2,425	2,067						

Project Description

The project provides for the planned and orderly replacement of the current Legal system and the current Land Records system. Each of these revenue producing and document tracking systems is an integral part of the day to day operations of the Office of the County Clerk.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the Operating Budget is the debt service associated with the issuance of bonds. In addition, as the information technology systems are an integral part of the functioning of the County Clerk's Office, improvement in systems will enhance its services to the public and revenue generation.

Appropriation History

Year	Amount	Description
2007	950,000	Replacement of current Legal System - COMPLETE.
2008	500,000	Replacement of Information Technology systems - COMPLETE.

Non County Share									
Total	1,696	453		292	242	250	459		

Project Description

As the chief law enforcement officer of Westchester County, the District Attorney is responsible for the investigation and prosecution of all crimes and offenses committed in the County. This project will enable the District Attorney's Office to carry out this mandate by allowing for the purchase, upgrade and maintenance of information technology equipment, software and systems supporting the various District Attorney's Office locations throughout the County. The Project includes, but is not limited to, the upgrade of infrastructure wiring, security systems, off the shelf and proprietary software applications, server and storage equipment, networking equipment, desktop systems, peripherals and hand-held devices. This Project also includes a plan for disaster recovery should our area be subject to a catastrophic event.

Current Year Description

The current year request funds various upgrades to technology equipment, software and systems.

Non County Share									
Total	4,020	2,060	535	980	980				

Project Description

This project is the continuation for 2012 - 2016 of BIT03/BIT3A, New Desktop Systems. This project includes the replacement of aging equipment in order to increase operating efficiency and reduce maintenance costs. This will require $980,000, which at the approximate cost of $1,200 per unit will replace approximately 800 of the oldest units (about 20% of the existing base).

Current Year Description

The current year request will be used to replace or virtualize desktop units that have become obsolete.

Current Year Financing Plan

Year	Bonds	Cash	Non County Shares	Total

Gross	3,159	2,409	2,060	750					
Non County Share									
Total	3,159	2,409	2,060	750					

Project Description

This project was set up as the continuation BIT6A. The equipment falls into three basic categories: larger servers and data storage devices for multi-department or County-wide applications (e.g., payroll systems), smaller servers for single-department applications and network support and Exchange servers to support Microsoft Exchange, which is the underlying platform for MS Outlook, the automated office system used by the County. As the workflow effort expands, it will also be necessary to purchase scanners for some departments that require high speed scanning capacity.

Current Year Description

The current year funds an overhaul of the entire storage system which includes hardware for tiered storage hardware.

Current Year Financing Plan

Year	Bonds	Cash	Non County Shares	Total

Gross	3,650	3,650	2,891						
Non County Share									
Total	3,650	3,650	2,891						

Project Description

Westchester County and the municipalities within its borders maintain 39 primary and 8 secondary Public Safety Answering Points (PSAP's) that receive E-911 emergency calls. The required specialized equipment and software at each of the PSAP's are past its life cycle and need replacement if the County is to keep the E-911 system functioning efficiently. This project funds the upgrading of the equipment in the PSAP locations beginning with the sites that process the largest number of calls.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the Operating Budget is the debt service associated with the issuance of bonds.

Appropriation History

E911 REPLACEMENT EQUIPMENT PHASE II
(BIT30)

User Department : Information Technology

Managing Department(s) : Information Technology ;

Estimated Completion Date: TBD

Planning Board Recommendation: Project without physical planning aspects of concern to the Westchester County Planning Board.

FIVE YEAR CAPITAL PROGRAM (in thousands)

	Est Ult Cost	Appropriated	Exp / Obl	2015	2016	2017	2018	2019	Under Review
Gross	4,500	2,000	10	2,000	500				
Non County Share									
Total	4,500	2,000	10	2,000	500				

Project Description

Westchester County and the municipalities within its borders maintain 38 primary and 5 secondary public safety answering points (PSAP's) that receive E911 Calls. The required specialized equipment and software at each of the PSAP's is approaching the end of the life cycle and will be in need of replacement. This project is the 2nd Replacement of 911 Equipment. The first phase of replacement was under BIT15.

Current Year Description

The current year request funds purchase and installation of aging servers and equipment necessary for answering and dispatching E911 calls.

Current Year Financing Plan

Year	Bonds	Cash	Non County Shares	Total
2015	2,000,000			2,000,000

Impact on Operating Budget

The impact on the Operating Budget is the debt service associated with the issuance of bonds.

Appropriation History

Year	Amount	Description
2014	2,000,000	Purchase and installation of aging servers, 911 position PC's and backup equipment for answering and dispatching 911 calls - IN PROGRESS.

FIVE YEAR CAPITAL PROGRAM (in thousands)

	Est Ult Cost	Appropriated	Exp / Obl	2015	2016	2017	2018	2019	Under Review
Gross	30,000	6,000	3	2,000	6,000	8,000	8,000		
Non County Share									
Total	30,000	6,000	3	2,000	6,000	8,000	8,000		

Project Description

The Department of Information Technology oversees the design, implementation, and management of large mission critical radio systems used by the Departments of Emergency Services, Public Safety, Public Works, and Transportation. These systems are used by first responders and other governmental personnel to ensure safety of life and property and enable delivery of vital services to the citizens of Westchester County. This capital project will begin the process of specifying, designing, procuring, and implementing replacements for the Trunked Systems, the F1 and F3 systems and at least the radio component of the CAD/AVL systems so that transitions to the replacement systems can be completed before the end of 2018.

Current Year Description

The current year request funds replacement of the voice radio systems used by Fire and EMS first responders, County Police officers and the Bee Line bus fleet.

Current Year Financing Plan

Non County Share									
Total	1,625	325		325	325	325	325		

Project Description

The Department of Information Technology oversees the design, implementation, and management of large mission-critical radio systems utilized by the Department of Emergency Services, Public Safety, and Public Works and Transportation. These systems rely on supporting infrastructure at radio sites. This project will address the rehabilitation or replacement in order to maintain reliability levels appropriate for emergency response systems. In addition, some of the infrastructure at the County's pre-2005 radio sites was not originally built to meet current standards and guidelines for critical communication sites and needs to be improved to meet these standards.

Current Year Description

The current year request funds infrastructure rehabilitation, replacement and updated systems.

Current Year Financing Plan

Year	Bonds	Cash	Non County Shares	Total

Gross	1,942	1,517	1,409	425					
Non County Share									
Total	1,942	1,517	1,409	425					

Project Description

In place of year-by-year line appropriation requests for individual pieces of equipment, this capital project provides a lump sum amount to be used solely for the replacement and acquisition of equipment to support this department's programs. This type of approach is intended to facilitate the development by the Department of Labs & Research of a long range equipment replacement and acquisition program. Specific items to be acquired will be subject to review by the Budget Department in consultation with the Capital Projects Steering Committee.

Current Year Description

The current year request will continue the purchase of equipment.

Current Year Financing Plan

Gross	4,250	4,250	95						
Non County Share									
Total	4,250	4,250	95						

Project Description

This project will fund a comprehensive study and upgrade of an existing cooling and heating mechanical equipment system to incorporate the latest technologies for energy efficiency. The study will comprise both air distribution and piping systems including air handling units, boilers, chillers, condensers, cooling towers, exhaust fans, heat exchangers, pumps, terminal units and any related work. These upgrades will reduce the amount of energy uses for heating and cooling of the Labs and Research building. The study will provide the information necessary to determine the exact scope and cost to upgrade the HVAC system.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the Operating Budget is the debt service associated with the issuance of bonds. In addition, with the upgrade of the HVAC systems efficiencies will be achieved through newer technologies.

Appropriation History

Project Description

This project continues the funding for the Westchester County Housing Implementation Fund (HIF) previously funded under BPL01. HIF is a unique housing incentive program established to provide municipalities with funds for public infrastructure and improvements such as water, sanitary and storm sewer, road and site improvements needed to facilitate the construction or rehabilitation of fair and affordable housing. This is a general fund, specific projects are subject to a Capital Budget Amendment.

Current Year Description

The current year request funds the continuation of this project.

Current Year Financing Plan

Year	Bonds	Cash	Non County Shares	Total

Non County Share			202						
Total	61,150	58,150	31,342	3,000					

Project Description

The New Homes Land Acquisition Fund provides funding to acquire property for the construction of fair and affordable housing. The purpose of the Fund is to increase the inventory of available properties for fair and affordable housing development. In addition to the acquisition cost of properties, other costs associated with, and often required for, site acquisition may be considered eligible costs to be funded through this project. Such associated costs may include, but are not limited to, closing costs, appraisals, property surveys, environmental assessments, hazardous materials reports and demolition of existing structures. Demolition may be particularly critical in the County's urban areas where existing structures need to be removed to expand the number of affordable units which can feasibly be constructed at a site. This is a general fund, specific projects are subject to a Capital Budget Amendment.

Current Year Description

The current year request funds the continuation of this project.

Non County Share	(14)	(14)	(28)						
Total	2,324	324	208						2,000

Project Description

The project scope has been modified to create a bikeway along Grasslands Road. The proposed bikeway would be created through widening of shoulders, use of existing shoulders, resurfacing of asphalt, and restriping. The bikeway will facilitate a very important east/west linkage between the North and South County Trailways and Bronx River Trailway.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the Operating Budget is the debt service associated with the issuance of bonds.

Non County Share	(4,445)	(4,445)	(2,260)						
Total	2,259	2,259	2,878						

Project Description

This project consists of a variety of water quality improvement projects. Most of the projects utilize grants from federal, state or other funding sources for at least 50% of the total project costs. Among the projects are: 1) Habitat Restoration at Edith Read Natural Park and Wildlife Sanctuary. 2) Water Quality and Habitat Improvement at Nature Study Woods in New Rochelle. 3) Water Quality and Habitat Restoration Projects along the Sheldrake River and Sheldrake Lake in New Rochelle and Mamaroneck Town. 4) Water Quality and Habitat Restoration at Maple Moor Golf Course. 5) Edith G. Read Natural Park and Wildlife Sanctuary Habitat Restoration. 6) Bronx River Watershed Management Plan. 7) Restoration of Manursing Lake, including replacement of a tide gate and restoration of tidal wedlands. This project included the formation of an intermunicipal watershed advisory committee and development of a stormwater and ecological management plan for the Bronx River watershed.

Non County Share	(492)	(492)	(492)						
Total	2,292	2,292	1,492						

Project Description

The federal stormwater regulations (the Phase II implementation of the Clean Water Act by the EPA), administered in New York State by the NYSDEC under the SPDES program, require that the County (a regulated entity under Phase II) prepare and implement a stormwater management plan to reduce impacts associated with stormwater runoff generated from its facilities or carried through its storm sewer system. This Capital program will fund stormwater management projects that are required to comply with these regulations and can be used to demonstrate best practices.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the Operating Budget is the debt service associated with the issuance of bonds.

Non County Share									
Total	17,500	5,000			2,500	2,500	2,500	2,500	2,500

Project Description

This is a continuation of project BPL10 New Homes Land Acquisition Fund (NHLA). NHLA provides funds to acquire property for the construction of fair and affordable housing. The purpose of the Fund is to increase the inventory of available properties for fair and affordable housing development. In addition to the acquisition cost of properties, other costs associated with, and often required for, site acquisition may be considered eligible costs to be funded through the NHLA program. Such associated costs may include, but are not limited to, closing costs, appraisals, property surveys, environmental assessments, hazardous materials reports and demolition of existing structures. Demolition may be particularly critical in the County's urban areas where existing structures need to be removed to allow construction of fair and affordable units. Funds can be used in all municipalities. This is a general fund, specific projects are subject to a Capital Budget Amendment.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the Operating Budget is the debt service associated with the issuance of bonds.

Appropriation History

Year	Amount	Description

Non County Share	(21,600)	(21,600)	(15,986)						
Total	30,000	30,000	17,397						

Project Description

This capital project provides funding to ensure the development of at least 750 new fair and affordable housing units that meet the terms and conditions set forth in the Stipulation and Order of Settlement and Dismissal entered between Westchester County and the United States. The funds will be used for among other things: infrastructure and construction needed to facilitate the development of fair and affordable housing, the acquisition of property to construct fair and affordable housing and associated costs such as surveys, appraisals, environmental assessments, hazardous materials reports, demolition of existing structures and closing costs. This is a general fund, specific projects are subject to a Capital Budget Amendment.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the Operating Budget will be the debt service associated with the issuance of bonds.

Gross	780	780	607						
Non County Share									
Total	780	780	607						

Project Description

This project funds the Environmental Benefit Projects (EBPs) that are required to be undertaken by the County under an Order on Consent with the NYS Department of Environmental Conservation, executed on December 30, 2008. Under the terms of the Order on Consent, the County commits to fund not less than $780,000 for EBPs identified in the County's EBP Plan. The EBP Plan will include, but is not limited to, the following projects: 1. Stream buffer restoration along the Mamaroneck River in the County-owned Saxon Woods Park in the Town/Village of Harrison and the Town of Mamaroneck; 2. Expansion of existing tidal pond, tidal wetland and coastal buffer restoration and re-establishment project at Manursing Lake at the County-owned Edith G. Read Wildlife Sanctuary and Natural Park in the City of Rye.

Current Year Description

There is no currrent year request.

Impact on Operating Budget

The impact on certain Sewer District Budgets (Port Chester, New Rochelle, Blind Brook and Mamaroneck), is the debt service associated with the issuance of bonds.

RENOVATION OF PUBLIC SAFETY FACILITY IN HAWTHORNE
(BPS15)

User Department : Public Safety

Managing Department(s) : Public Safety ; Public Works ;

Estimated Completion Date: TBD

Planning Board Recommendation: Project approved in concept but subject to subsequent staff review.

FIVE YEAR CAPITAL PROGRAM (in thousands)

	Est Ult Cost	Appropriated	Exp / Obl	2015	2016	2017	2018	2019	Under Review
Gross	4,250	400	4	3,850					
Non County Share									
Total	4,250	400	4	3,850					

Project Description

The project provides for the renovation of the current Public Safety Headquarters Building in Hawthorne. The renovation will include the allotment and structure of space to meet County Standards and operational needs as well as provide additional functional space for units such as Identification and Property. In addition, the project will provide for the creation of a training/muster room and staff lounge. Work will also involve a new suspended ceiling throughout the facility including new lighting, electrical wiring and HVAC modifications, refurbishing of the bathrooms, installation of an elevator, and new furniture.

Current Year Description

The current year funds construction for the project.

Current Year Financing Plan

FIVE YEAR CAPITAL PROGRAM (in thousands)

	Est Ult Cost	Appropriated	Exp / Obl	2015	2016	2017	2018	2019	Under Review
Gross	8,600	8,600	5,461						
Non County Share			(29)						
Total	8,600	8,600	5,432						

Project Description

In 2004 a Facility Management Survey and Evaluation of County roofs was completed. The investigation revealed that many roofs are in deteriorating condition and in need of phased replacement. This project implements the findings of the survey. Additional funding will be required for the installation of a photovoltaic system, if it is appropriate for the specific site.

Current Year Description

There is no current year request.

Impact on Operating Budget

The Operating Budget will be impacted by the debt service associated with bond issuance. In addition, the replacement of roofs will maintain the County's assets and defer future costs.

Appropriation History

Year	Amount	Description
2007	1,950,000	Design and construction of roofing replacement at the Old Jail (East, West and K Blocks; Forensic Wing) - COMPLETE.

Total	5,900	5,900	1,641						

Project Description

This project funds the modifications and upgrading of the building management systems that control the heating, ventilation, and air conditioning equipment in Department of Public Works - maintained facilities. The first priority will be the existing DPW maintained buildings and facilities currently using unsupported Andover "Infinity" DDC Controls and Software. The second priority will be the existing DPW maintained buildings and facilities currently using non-Andover compatible DDC Controls, Electric Controls or Pneumatic Control Systems.

Current Year Description

There is no current year request.

Impact on Operating Budget

The Operating Budget will be impacted by the debt service associated with the issuance of bonds. In addition, by having an upgraded management system, this will have a positive effect on the Operating Budget by increased efficiencies.

Appropriation History

Year	Amount	Description
2007	1,100,000	Modifications and upgrade of existing facilities currently using unsupported Andover "Infinity" DDC controls and software - COMPLETE.

Gross	6,560	6,560	3						
Non County Share									
Total	6,560	6,560	3						

Project Description

This project will create a training prop to simulate the unique fire conditions typically found in a commercial strip mall. This prop will utilize live fire and smoke created by burning class "A" materials in a monitored, safety-controlled environment. A live burn provides the opportunity to experience the actual condition firefighters will face when battling blazes in commercial settings and learn the characteristics of fires in various types of commercial construction. In addition, one of the existing bulk propane storage tanks located onsite will be eliminated, the remaining tank relocated and propane supply connections re-piped to the remaining tank. An additional back-up power source is planned for improved training yard security to allow for continued operation and security during power outages. Deteriorated sidewalks will be replaced in the training yard to improve safety conditions. In the interest of streamlining projects and developing a "shared" training opportunity, the Department has begun discussions with the Department of Public Safety to explore the feasibility of expanding the concept of the Strip Mall to include a "shooters village" or "hooligans alley" in the project design, within the existing budget.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the Operating Budget is the debt service associated with the issuance of bonds. In addition, there will be operating expenses once the facility is functioning.

Department of Planning
432 Michaelian Office Building
148 Martine Avenue
White Plains, NY 10601

Parkways

The Department of Public Works, in conjunction with the Departments of Parks and Planning, is responsible for the Bronx River Parkway. A portion of the Bronx River Parkway is listed on the National Register of Historic Places. The Department of Public Works is responsible for maintenance and repair of the roadway and bridges. The Departments of Parks and Planning are involved in the historical nature of the parkway and surrounding environment. The emphasis of the projects listed under Parkways is the provision of safer traffic flow, access and drainage, and retaining important natural features and historically significant structures and design concepts.

Impact on Operating Budget

The impact on the Operating Budget is the debt service associated with the issuance of bonds.

Roads & Bridges

The County road system was created to relieve municipalities of the burden of constructing and maintaining highways, which carry traffic originating and ending across their boundaries. County roads also are secondary routes handling traffic between State roads.

The County Department of Public Works maintains approximately 144 miles of roadway and 164 bridges. The major thrust of the current construction program is to provide safer traffic flow, access and drainage, retaining important natural features and historically significant structures and design concepts, and accommodate existing and future recreation, housing or economic development.

Gross	3,000	3,000	2,927						
Non County Share									
Total	3,000	3,000	2,927						

Project Description

This project funds the repair or replacement of existing culvert structures on County Roads under the jurisdiction of Public Works of which there are 88 culverts on County Roads and the Bronx River Parkway. The original project required more rehabilitation than the original scope of work. Therefore it is recommended that a study be undertaken to determine the future construction costs, and provide recommendations for implementation of storm water management practices as required by NYSDEC regulations.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the Operating Budget is the debt services associated with the issuance of the bonds.

Project Description

This project will replace 30 overhead sign structures and/or sign panels on County Roadways. The location and text of these signs are mandated by the Manual of Uniform Traffic Control Devices. Many of these signs were installed by the NYSDOT as part of the interstate highway construction and most are older than 40 years old. Recent NYSDOT inspection has revealed many deficiencies on these structures and on the sign panels. New signs and structures will meet current design standards.

Current Year Description

The current year request funds construction and construction management for the project.

SEVEN BRIDGES ROAD, C.R. 5, NEW CASTLE
(RB168)

User Department : Public Works

Managing Department(s) : Public Works ;

Estimated Completion Date: TBD

Planning Board Recommendation: Project approved in concept but subject to subsequent staff review.

FIVE YEAR CAPITAL PROGRAM (in thousands)

	Est Ult Cost	Appropriated	Exp / Obl	2015	2016	2017	2018	2019	Under Review
Gross	680	680							
Non County Share									
Total	680	680							

Project Description

The improvements will include cold milling and removal of the existing asphalt overlay, joints and cracks will be cleaned and sealed, the road tack-coated and paved with asphalt. A shoulder widening will be provided on each side of the roadway for safety purposes and to prevent excessive wear and tear on the road edges. Work will also include full depth pavement repairs, guide rail replacement, drainage repairs, drainage and utility structure adjustment, replacement of traffic signal loops and pullboxes, and new pavement markings. The project limits are from Route 133 to the Yorktown/New Castle Line. A distance of 0.36 miles in the Town of New Castle.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the Operating Budget is the debt service associated with the issuance of bonds.

Roads & Bridges

CAPITAL PROJECTS THAT HAVE BEEN COMPLETED AND TO BE CLOSED OUT

PROJECT	TITLE
RB014	TRAFFIC SIGNAL SYSTEM REHABILITATION, VARIOUS LOCATIONS

TRAFFIC SIGNAL SYSTEM REHABILITATION, VARIOUS LOCATIONS
(RB014)

User Department : Public Works

Managing Department(s) : Public Works ;

Estimated Completion Date: 2014

Planning Board Recommendation: Project has historical implications. Project approved in concept but subject to subsequent staff review.

FIVE YEAR CAPITAL PROGRAM (in thousands)

	Est Ult Cost	Appropriated	Exp / Obl	2015	2016	2017	2018	2019	Under Review
Gross	5,617	5,617	5,525						
Non County Share	(3,917)	(3,917)	(3,912)						
Total	1,700	1,700	1,613						

Project Description

The project funds the upgrade and modernization of traffic signals on County roads. Existing signals lack the mandatory two primary signal faces for each intersection approach. Upgrading will increase traffic safety and reduce accident potential. The work will include the installation of new poles, controller, loop detectors and associated equipment and will allow for more efficient allocation of green times, reduce delays and improve air quality. The County has received Congestion Mitigation/Air Quality (CMAQ) Funds and Marchiselli Funds to upgrade 21 traffic signals on the Bronx River Parkway (9), Kensico Road/Columbus Avenue (6), and Mamaroneck Avenue (6). Part of this program will also connect all of these controllers. The next phase will rehabilitate 15 signals: Playland Parkway (3); Pelham Parkway (3); Ashford Avenue (2); Weaver Street (1); Benedict Avenue (2); I-287 Ramp A at Westchester Avenue (1); Union Avenue (1); Croton Point Avenue (1); South Ridge Street (1).

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the Operating Budget will be the debt service associated with the issuance of bonds

Recreation Facilities

The inventory of County parks and park facilities totals over 16,000 acres. Facilities include: swimming pools, beaches, camping areas, playgrounds, golf courses, ice skating areas, picnic facilities, nature preserves and study areas, boat launching areas, an interpretive farm, a County-wide trailway system for bicyclists and pedestrians, and Playland Amusement Park.

The Five Year Capital Program for Parks (including Playland) proposes some projects for new construction, but the primary focus is rehabilitation and major upgrading of existing older facilities. These projects address the wide range of recreational services provided to County residents.

COUNTY CENTER SITE WORK
(RCC10)

User Department : Parks, Recreation & Conservation

Managing Department(s) : Parks, Recreation & Conservation ; Public Works ;

Estimated Completion Date: TBD

Planning Board Recommendation: Project has historical implications. Project approved in concept but subject to subsequent staff review.

FIVE YEAR CAPITAL PROGRAM (in thousands)

	Est Ult Cost	Appropriated	Exp / Obl	2015	2016	2017	2018	2019	Under Review
Gross	9,055	8,055	3,642	1,000					
Non County Share									
Total	9,055	8,055	3,642	1,000					

Project Description

This site work project will involve exterior grounds renovation and rehabilitation to the lands surrounding the County Center. The work includes lighting, drainage, landscaping, walkways, paving, stairways, ticket booth, storage building, bike path relocation, parking lot improvements, and associated infrastructure, site work and landscaping.

Current Year Description

The current year request funds to cover the increase in the infrastructure and construction costs associated with the overall project. This is due in part to the escalation of costs from 2010, and increased scope of work as a result of the conditions at the handicapped ramp and storage building.

Current Year Financing Plan

Year	Bonds	Cash	Non County Shares	Total
2015	1,000,000			1,000,000

Impact on Operating Budget

The impact on the Operating Budget is the debt service associated with the issuance of bonds. In addition, the County Center is the host of many exhibitions, sporting events, etc. from which it receives revenue. As such, it is required to maintain and upgrade the facility in order to continue these revenue streams.

Project Description

The project involves the resurfacing of various parking areas, pathways, and drives and roadways within the Park system. The work includes asphalt resurfacing, drainage, stormwater treatment facilities to protect water quality and control runoff, roadway signage, associated site work and landscaping.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the Operating Budget is the debt service associated with the issuance of bonds.

PARK WIDE BOILER REPLACEMENT
(RGP04)

User Department : Parks, Recreation & Conservation

Managing Department(s) : Parks, Recreation & Conservation ; Public Works ;

Estimated Completion Date: 2014

Planning Board Recommendation: Project has historical implications. Project approved in concept but subject to subsequent staff review.

FIVE YEAR CAPITAL PROGRAM (in thousands)

	Est Ult Cost	Appropriated	Exp / Obl	2015	2016	2017	2018	2019	Under Review
Gross	3,100	3,100	2,274						
Non County Share									
Total	3,100	3,100	2,274						

Project Description

This project continues to address a programmed assessment and replacement as necessary of all the existing boilers along with asbestos abatement at locations throughout the County Park system.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the Operating Budget is the debt service associated with the issuance of bonds. In addition, as the boilers are replaced with newer more efficient units, there will be some efficiencies.

Appropriation History

Year	Amount	Description
2002	100,000	Study to replace all boilers in County parks - COMPLETE.
2006	500,000	Boiler replacement Bronx River Parkway Reservation, Dunwoodie and Mohansic golf courses, Muscoot, Pound Ridge, and Blue Mt. - COMPLETE.

White Plains, NY 10601

Transportation

Transportation projects reflect the continuing development and implementation by the County of an integrated and multi-faceted mass transit capital program. Objectives of this program are to: (1) provide a modern bus fleet through a major long-term bus acquisition program; (2) extend the useful life, improve maintenance, and provide for safer and cleaner buses through consolidated garage and maintenance facilities; (3) improve operations and facilitate use of the bus service through installation of an automated scheduling system and two-way bus radio system and (4) improve passenger amenities at bus stops and major transit hubs.

Non County Share	(2,750)	(2,500)	(365)	(250)					
Total			251						

Project Description

Central Park Avenue between White Plains and the Bronx County line is one of the busiest and most heavily served transit corridors in the county. It is also one of the most congested. A study of the corridor as a potential site for Bus Rapid Transit Service, begun in 2007, has recommended a number of interim improvements to traffic signals, intersections and pedestrian access facilities that could produce short term, high impact, general traffic decongestion and transit running time reductions.

Current Year Description

The current year request funds implementation of this project.

Current Year Financing Plan

Year	Bonds	Cash	Non County Shares	Total
2015			250,000	250,000

Impact on Operating Budget

There is no impact on the Operating Budget as this project is funded 100% with State funds.

Appropriation History

2015 Airport Capital Projects

Department of Planning
432 Michaelian Office Building
148 Martine Avenue
White Plains, NY 10601

Airport

The Westchester County Department of Public Works and Transportation operates the Westchester County Airport. The 695-acre facility serves general aviation and limited commercial, commuter, and corporate carriers, primarily serving residents and business travelers in Westchester and Fairfield Counties.

The Capital program for the Airport is based in part on the Airport Master Plan update of 1987. The Master Plan outlines a comprehensive improvement of airport facilities including such projects as a new terminal building, rehabilitation of runways and taxiways, and expansion of light general aviation facilities. Projects proposed at the Airport over the next five years include a new master plan, equipment replacements, infrastructure improvements, building rehabilitation projects, aircraft safety and rescue improvements and projects to comply with State or Federal mandates.

Total	1,360,000	410,000	950,000

STORM WATER MANAGEMENT PROGRAM
(A042B)

User Department : Airport/DOT

Managing Department(s) : Airport/DOT ; Public Works ;

Estimated Completion Date: TBD

Planning Board Recommendation: Project approved in concept but subject to subsequent staff review.

FIVE YEAR CAPITAL PROGRAM (in thousands)

	Est Ult Cost	Appropriated	Exp / Obl	2015	2016	2017	2018	2019	Under Review
Gross	3,300	3,300	339						
Non County Share	(2,987)	(2,987)	(195)						
Total	313	313	144						

Project Description

The goal of the Storm Water Management Program initiated in 1993 was to effectively control the flow of storm water in the Blind Brook as it left the Airport to the level it was at in 1987. The program was initiated as mitigation for the diversion of storm water run off from the Rye Lake Watershed to the Blind Brook Watershed and to accommodate future impervious surface development at the Airport within the guidelines of the 1987 Master Plan Update. A 2007 analysis indicates that the projects undertaken to date have not been fully successful in controlling water flow during heavy storms and that a second phase program is necessary to achieve the original goal. This project will design and construct storm water collection and detention facilities to further reduce the flow of storm water in Blind Brook as measured at the confluence of the east and west branches of the Blind Brook just downstream of the Airport.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the Airport Special Revenue Fund is the appropriation of cash to Capital.

Appropriation History

Year	Amount	Description
2009	300,000	Design - AWAITING DESIGN.
2010	3,000,000	Construction - STUDY COMPLETE; IN DESIGN.

Planning Board Recommendation: Project approved in concept but subject to subsequent staff review.

FIVE YEAR CAPITAL PROGRAM (in thousands)

	Est Ult Cost	Appropriated	Exp / Obl	2015	2016	2017	2018	2019	Under Review
Gross	12,550	12,550	3,727						
Non County Share	(9,970)	(9,970)							
Total	2,580	2,580	3,727						

Project Description

This project addresses the terminal systems which will be in need of replacement or refurbishment due to use, security requirements, and technology changes. This project will also address some terminal modifications found necessary as a result of the Terminal Capacity Agreement, the Security Master Plan and Transportation Security Administration (TSA) requirements.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the Airport Special Revenue Fund is the Cash to Capital appropriation and the debt service associated with the issuance of bonds.

Appropriation History

Year	Amount	Description
2003	300,000	Upgrade of terminal counters, electronic ticket system and security issues - COMPLETE.
2005	750,000	Construction of new terminal counter system - COMPLETE.
2006	250,000	Refurbishment of jet bridge - COMPLETE.
2007	250,000	Upgrade of the electrical systems - IN DESIGN.
2008	8,000,000	Improvement to exterior door, observation deck, waiting room, baggage storage, passenger walkways, and ramp areas - IN DESIGN.
2012	3,000,000	Purchase & Installation of Jet Bridges - IN PROGRESS
Total	12,550,000	

Prior Appropriations

	Appropriated	Collected	Uncollected
Bond Proceeds	750,000	350,000	400,000

AIRPORT NATURAL GAS PIPELINE
(A0099)

User Department : Airport/DOT

Managing Department(s) : Airport/DOT ; Public Works ;

Estimated Completion Date: TBD

Planning Board Recommendation: Project approved in concept but subject to subsequent staff review.

FIVE YEAR CAPITAL PROGRAM (in thousands)

	Est Ult Cost	Appropriated	Exp / Obl	2015	2016	2017	2018	2019	Under Review
Gross	5,600	5,600	244						
Non County Share									
Total	5,600	5,600	244						

Project Description

A natural gas pipeline is currently located at the southern boundary of the airport. The establishment of this utility service to various hangars and buildings will provide increased energy efficiency and the elimination of selected underground fuel storage tanks. In addition, a natural gas fueling station can be provided that would allow for the purchase of natural gas powered vehicles. This overall effort would reduce airport hydrocarbon emissions that could be used as part of an air quality credit program.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the Airport Special Revenue Fund is a Cash to Capital appropriation.

Appropriation History

Year	Amount	Description
2009	1,000,000	Feasibility study and design - IN PROGRESS
2013	410,000	Design & construction of a gas pipeline - IN PROGRESS.
2014	4,190,000	Construction for the project. Non-county shares will no longer be received - AWAITING BOND AUTHORIZATION
Total	5,600,000	

Prior Appropriations

	Appropriated	Collected	Uncollected
Bond Proceeds	5,090,000		5,090,000
Federal Funds			
Funds Revenue	510,000	510,000	
Total	5,600,000	510,000	5,090,000

ENVIRONMENTAL MONITORING SYSTEMS
(A0104)

User Department : Airport/DOT

Managing Department(s) : Airport/DOT ; Public Works ;

Estimated Completion Date: TBD

Planning Board Recommendation: Project approved in concept but subject to subsequent staff review.

FIVE YEAR CAPITAL PROGRAM (in thousands)

	Est Ult Cost	Appropriated	Exp / Obl	2015	2016	2017	2018	2019	Under Review
Gross	1,250	250	177	1,000					
Non County Share	(1,188)	(238)	(161)	(950)					
Total	62	12	16	50					

Project Description

This project provides for the Airport Noise Operations Monitoring Systems (ANOMS) Software upgrade including replacement of monitors in local communities and other environmental monitoring enhancements.

Current Year Description

The current year request funds the replacement of monitors in local communities.

Current Year Financing Plan

Year	Bonds	Cash	Non County Shares	Total
2015		50,000	950,000	1,000,000

Impact on Operating Budget

The impact on the Airport Special Revenue Fund is the appropriation of Cash to Capital.

Appropriation History

Year	Amount	Description
2009	250,000	Software upgrade - COMPLETE
Total	250,000	

Prior Appropriations

Non County Share									
Total	300	300	300						

Project Description

As a part of the process of complying with Federal security directives, the Airport Security Department is requesting a software package that will enable automation of the airport badging system. The software will permit the automatic transfer of airport ID applicant and/or ID badge holder data (including personal information, photographs, and fingerprints) to the Transportation Security Clearinghouse (TSC) and Transportation Security Administration (TSA), therefore eliminating the need for multiple manually assembled reports to be submitted to these agencies.The software would also serve as the central database for the integration of all existing airport ID badge related equipment and services to avoid data entry and paper filing redundancy. It would also enable cost cutting two-fold: 1) by reducing time necessary for completing all steps in the ID process, and 2) by reducing the fee that airport pays to the TSC per processed record.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the Airport Special Revenue Fund is the appropriation of Cash to capital.

Refuse Disposal

Refuse Disposal District No. 1 is designated to act as the County's solid waste agency and consists of 36 Westchester municipalities which have entered into Inter-municipal Agreements for the purposes of solid waste management. The current five year program and existing appropriations includes the closure of cell 3B at Sprout Brook and the purchase of additional apparatus, equipment and haulage vehicles. Collectively, the solid waste capital projects will greatly enhance the ability of the Disposal District to efficiently manage the County's solid waste stream.

Total	7,000	7,000	2,573						

Project Description

The Material Recovery Facility (Recycling Center) or MRF, is located at the New York State Thruway Exit 6A in Yonkers. The facility now receives between 70,000 to 80,000 tons of recyclables each year for separation, processing and marketing, as a diversion from the Charles Point Resource Recovery Facility and in compliance with State and County recycling goals. This project is for equipment modifications to the MRF that would enhance the efficiency of sortation of the commodities which will provide economic advantages in marketing the material and the project will also enable the County to receive additional recyclable commodities as markets develop.

Current Year Description

There is no current year request.

Impact on Operating Budget

The Refuse District Budget is impacted by the appropriation of Cash to fund the project.

Gross	2,000	2,000	100						
Non County Share									
Total	2,000	2,000	100						

Project Description

This project will involve the design and construction for correction of the ongoing settlement issues with the Gas Extraction Well piping at the Croton Point and Railroad I Landfills. This multi-phased project will rehabilitate the existing gas extraction wells that are not functioning efficiently due to gas piping settlement and condensate blockage in the resulting low points. Once the gas extraction system has been rehabilitated, a study will then determine if there is an adequate amount of gas produced to design and construct a system to develop the captured landfill gas into a useable energy source.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the District Operating Budget is the debt service associated with the issuance of bonds.

Non County Share									
Total	12,000	2,150	157	5,800					4,050

Project Description

This multi-phased project will include, but not be limited to, the design and construction of a leachate collection system for the haulage vehicle "trailer staging area" at the MRF to address the liquid leachate leaking from the trailers in the first phase. The second phase will involve the repair of any structural deficiencies identified in a prior structural inspection program and the roof replacements for the MRF and the four (4) Solid Waste Transfer Stations. Also included will be the repair or replacement of the various HVAC, electrical, mechanical and plumbing systems and equipment at the MRF and Transfer Stations. The third phase will address the replacement of the entire Fire Suppression System in the MRF, to bring the system into compliance with current fire codes.

Current Year Description

The current year request funds additional construction costs.

Current Year Financing Plan

Sewer and Water Districts

Areas which are not served by private water or sewer systems are grouped into County Sewer and Water Districts. Thirteen sewer districts and four water districts are responsible for providing these services. The capital and operating costs of the Department of Environmental Facilities and all treatment facilities are shared by each District through an ad valorem tax. The current five year program includes plant enhancements, rehabilitation of existing facilities, and federal and state mandated programs.

Non County Share			(500)						
Total	1,850	1,850	302						

Project Description

This project provides funding for the reconstruction and rehabilitation of various County-owned sewage facilities that were damaged by Superstorm Sandy. The project includes the reconstruction and rehabilitation of infrastructure consisting of, but not limited to, electrical equipment, controls and motors, generators, pumps, mechanical equipment, heating and HVAC systems, structural damage and all related ancillary equipment and systems which were damaged by the storm. Other miscellaneous costs related to storm reconstruction are also included.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the District Operating Budget is the debt service associated with the issuance of bonds.

VULNERABILITY ASSESSMENT STUDIES
(SW006)

User Department : Environmental Facilities

Managing Department(s) : Environmental Facilities ;

Estimated Completion Date: TBD

Planning Board Recommendation: Project has historical implications. Project approved in concept but subject to subsequent staff review.

FIVE YEAR CAPITAL PROGRAM (in thousands)

	Est Ult Cost	Appropriated	Exp / Obl	2015	2016	2017	2018	2019	Under Review
Gross	900	900	487						
Non County Share									
Total	900	900	487						

Project Description

This project will fund studies to review DEF facilities and access vulnerabilities to flooding due to high levels of precipitation, storms and storm surges, climate changes and sea level rise. Once the vulnerable areas and/or equipment have been identified at each facility, the risk that each vulnerable area and/or equipment poses to the overall operation of the facility will be accessed with the goal of keeping the facility operational at all times while assuming a reasonable amount of risk. The next step will determine hazard mitigation alternatives for each of the critical facility areas, groups or individual pieces of equipment. The mitigation alternatives may include but not be limited to, the following: flood walls or barriers, flood avoidance, raising wall heights and/or equipment, watertight doors, stop logs, substitution of equipment types, portable equipment, increased operability and WWTP by-pass. The mitigation measures may also be other physical improvements, changes in policy and/or emergency response and staging as well as a "no action" alternative. Once hazard mitigation alternatives are identified for each facility, a cost estimate for the implementation of the various alternatives will be developed. A cost/benefit analysis will be completed for all of the identified alternatives and recommendations shall be made for a strategy and prioritized schedule for implementation of the cost effective alternatives in the near term and those that may be deferred to a later date.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the District Operating Budget is the debt service associated with the issuance of bonds.

Project Description

The CMOM (Capacity Assurance, Management, Operation, Maintenance) program for the County trunk sewers requires an accurate means of locating and mapping the facilities. This project will allow the accurate mapping of County Trunk sewers on recent aerial photos. In addition, the GIS maps will be linked to the department's Computerized Maintenance Management System to capture all maintenance records and history. This is also a CMOM requirement.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the District Budget is the appropriation of Cash to Capital and the debt service associated with the issuance of bonds.

Gross	1,020	1,020	304						
Non County Share									
Total	1,020	1,020	304						

Project Description

This project funds the systematic, phased replacement, reconstruction and/or rehabilitation of the 47 forcemains in the County sewage disposal system. The overall program will take up to forty years to complete and will be broken into multiple phases. The Phase 1 projects have been broken into appropriate sewer districts for design and construction. Phase 2 study is underway. Phase 3 is the next group for study. Forcemains carry sewage under pressure from the pump stations to gravity sewers and treatment plants. These pipes are subject to wear and tear and over time need repair and/or replacement. Modifications in the budget for this project are being proposed.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the District Budget is the debt service associated with the issuance of bonds.

Project Description

This project will provide for the repair, upgrading and replacement of various items of equipment and systems at the Blind Brook Wastewater Treatment Plant. Equipment or systems to be replaced or refurbished will include, but not be limited to, HVAC equipment not included in performance maintenance project, primary sludge and sludge transfer pumps including associated piping and valves; primary clarifier scum pit piping and valves; aeration tank effluent sluice gates; all aeration blower piping; influent (4) and effluent (4) VFD's; piping, valves and controls for caustic and hypochlorite tanks associated with odor control scrubbers; service water system upgrade; hypochlorite disinfection carrier water system upgrade. The project is broken down into design and construction phases; preliminary design will also include a review of the sludge forcemain to the Port Chester Plant. Further refinement and phasing will be performed after design is undertaken. All equipment upgrades will include integration into SCADA system. This request is for design.

Current Year Description

The current year request funds additional design for this project.

FIVE YEAR CAPITAL PROGRAM (in thousands)

	Est Ult Cost	Appropriated	Exp / Obl	2015	2016	2017	2018	2019	Under Review
Gross	182,000	182,000	160,886						
Non County Share									
Total	182,000	182,000	160,886						

Project Description

The NYS Department of Environmental Conservation placed a moratorium on all new sewer extensions within the New Rochelle District due to the Plant exceeding the 13.6 MGD flow limit. In response, the County has prepared a draft Composite Performance Evaluation Study and a Comprehensive Wastewater Study. The results of those studies indicate that a combination of plant upgrading and possible expansion are necessary to maintain the plant operations and lift the moratorium. In addition, upgrading the local sewer system in accordance with the Sewer System Evaluation Survey will also be necessary in order to limit the size of the potential plant expansion to 20 MGD.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the District Budget is the debt service associated with the issuance of bonds, as well as Cash to Capital.

Appropriation History

Year	Amount	Description

Managing Department(s) : Environmental Facilities ; Public Works ;

Estimated Completion Date: TBD

Planning Board Recommendation: Project without physical planning aspects of concern to the Westchester County Planning Board.

FIVE YEAR CAPITAL PROGRAM (in thousands)

	Est Ult Cost	Appropriated	Exp / Obl	2015	2016	2017	2018	2019	Under Review
Gross	6,850	4,850	722	2,000					
Non County Share									
Total	6,850	4,850	722	2,000					

Project Description

This project will provide for major Secondary System Upgrades not addressed in other programs. The project will focus on rehabilitation of the (DAF) Dissolved Air Flotation thickeners, and related secondary sludge handling equipment. The DAF rehabilitation includes replacement of skimmers; upper and lower skimmer equipment/chains, drive units and sprockets; replacement of 6 sludge pit pumps and piping, sludge feed and recycle pumps, sludge flow meters and complete replacement of polymer system; new positive displacement pumps to pump thickened sludge to the digesters, an additional thickened sludge conveyor to enhance operational flexibility and all associated controls. All equipment will be integrated into existing SCADA systems. Further refinement and phasing will be performed after design is undertaken.

Current Year Description

The current year request funds additional construction cost.

Current Year Financing Plan

Estimated Completion Date: TBD

Planning Board Recommendation: Project without physical planning aspects of concern to the Westchester County Planning Board.

FIVE YEAR CAPITAL PROGRAM (in thousands)

	Est Ult Cost	Appropriated	Exp / Obl	2015	2016	2017	2018	2019	Under Review
Gross	2,200	200				2,000			
Non County Share									
Total	2,200	200				2,000			

Project Description

This project will evaluate the condition and useful life of all major components of the plant electrical system as well as exterior and interior plant lighting. Electrical system evaluation should include a coordinated study which should document deficiencies and update one line diagrams for any equipment not addressed in other Capital Projects. Report should focus on, but not be limited to, Switchgears, Motor Control Centers and Main Feed lines with recommendations sufficiently detailed to allow the department to allocate funding for design and implementation in a phased manner. Plant lighting component of this evaluation should assess the condition and useful life of all interior and exterior plant lighting with the emphasis on Roadway lighting, tank deck lighting, interior building lighting and ground fault protection system. Recommendations for upgrades and replacements will be adequately detailed and implementation will be performed through a phased approach.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the District Budget is the debt service associated with the issuance of bonds. The outcome of the study may lead to future capital projects as well.

Non County Share									
Total	17,300	12,000	6,706		5,300				

Project Description

This project funds the rehabilitation of the bulkhead. The Secondary Treatment Facilities at the Yonkers Joint Wastewater Treatment Plant were built on a site reclaimed from the Hudson River. A cellular steel bulkhead was installed along the perimeter and the enclosure was filled with sand. This construction was completed in 1972. Because of ice flows and the salinity of the Hudson River, it is prudent to inspect the steel cells. The Department retained the services of an engineer to investigate the structural integrity of the steel bulkhead both above and below the waterline.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the District Budget is the debt service associated with the issuance of bonds.

Project Description

This is a previously programmed project which originally requested funds for replacement of the three diesel/methane dual fuel engines and reconditioning of the blowers. The project has been revised to provide for refurbishment of the engines, and reconditioning of the blowers. Further revision is required by the New Title V Permit Emissions Limits which require the replacement of the existing engines with 2 new natural gas/methane dual fuel engines. New more energy efficient turbo blowers will also be installed.

Current Year Description

There is no current year request.

Impact on Operating Budget

The impact on the District Budget is the debt service associated with the issuance of bonds.

Project Description

This is a previously programmed project that funds the replacement of plant components and equipment which will be reaching the end of its useful life. Phase 1 project included enhancements to the existing settling tank, modification to the aeration step feed, ash container mover, ash room air cleaner, exterior heavy duty doors, conversion of instrument system, process pumps, piping and control, hot water storage tank, chlorination, related design and engineering and construction. Phase 2 included additional equipment and systems not originally identified under Phase 1 which included influent bar screen, primary sludge pumps, effluent water pumps, scum pumps, primary tank weirs, automatic generator starter and load transfer equipment, water pit and backflow preventer, lighting, HVAC and safety equipment and ancillary construction. The final phase 3 includes enclosing the sludge loading and chemical unloading area and providing odor control. Adding sludge thickening equipment and sludge holding tanks with appropriate appurtenant equipment (i.e. polymer system and odor control). In addition, it will replace roofs and demolish multiple hearth furnaces to install new equipment, upgrade water, electric, plumbing and HVAC in the areas of the work, and create space for storage and electrical/instrumentation shop.

EFC Notes (A)	48,727,800
Ttl County Wide & District Bonds & Notes	1,187,980,039

(A) EFC Short term notes will be refinanced to Long Term in the future. At that point Principal Amortization and interest will be included in the appropriate year.

COUNTY OF WESTCHESTER
CAPITAL BALANCE SHEET AS OF SEPTEMBER 1, 2014
CAPITAL FUND

ASSETS:	ACTUAL
Cash	16,100,000
Accounts Receivable	9,175,000
Investments	62,251,248
Deferred Charge	95,960
TOTAL ASSETS	**$ 87,622,208**

LIABILITIES AND RESERVES:	
Due To Other Funds	79,874,009
Bond Anticipation Notes Payable	103,727,871
Retained Percentages, Contracts Payable	15,804,250
Fund Balance	(111,783,922)
TOTAL LIABILITIES AND RESERVES	**$ 87,622,208**

The below details budgetary amounts remaining on approved capital projects adopted by the Board of Legislators in current (as of September 1, 2014) and prior capital budgets but not yet bonded or collected as of September 1, 2014.

Bonding Authorized and Unissued September 1, 2014	$ 1,283,302,932
Financing to be Provided (not collected)--	
Federal and State	182,769,539
Other Governments	21,828,826
Total Financing not collected	204,598,365
Authorizations Remaining - Not Bonded or Collected	1,487,901,297

CAPITAL INDEBTEDNESS ACCOUNTS
(As Of September 1, 2014)

BOND PRINCIPAL OUTSTANDING:	
Airport	6,002,125
Buildings	348,324,096
Roads, Bridges, Parkways & Parks	216,622,225
Transportation	7,523,846
Sewer Treatment and Disposal Facilities	533,370,635
Water Pumping and Transmission Facilities	10,196,556
Refuse Disposal	17,212,757
TOTAL BOND PRINCIPAL OUTSTANDING	**$ 1,139,252,240**
NOTE PRINCIPAL OUTSTANDING:	
Buildings	
Roads, Bridges, Parkways & Parks	
Sewer Treatment and Disposal Facilities	48,727,800
Water Pumping and Transmission Facilities	
TOTAL NOTE PRINCIPAL OUTSTANDING	**48,727,800**
TOTAL BOND AND NOTE PRINCIPAL OUTSTANDING	**$ 1,187,980,040**
Provision to be made in 2015 Budget For above Principal	98,863,979
Net Indebtedness	1,089,116,061
Full Real Estate Valuation - Per State (Average last five years)	160,060,081,792
Borrowing Capacity (7% of Avg Full value)	11,204,205,725
Borrowing Margin	10,115,089,665

$278,584,575 of various Sewer and Water Project Indebtedness is excludable by State law from the computation of the County's borrowing margin. As a consequence, the County's borrowing margin is increased to $10,393,674,240.

FIXED ASSETS ACCOUNTS:

Land		$ 294,563,621
Buildings		723,537,630
Infrastructure		
General Government	$ 194,975,572	
Airport Facilities	110,029,349	
Parks	113,618,538	
Transportation	236,717,826	
Sewage Treatment and Disposal Facilities	839,608,557	
Water Pumping and Transmission Facilities	13,699,791	
Refuse Disposal	54,279,525	1,562,929,158
Equipment		469,083,226
Construction-in-Progress		661,772,614
Gross Investment in Fixed Assets		$ 3,711,886,249
Accumulated Depreciation		(1,056,502,425)
Net Fixed Assets		$ 2,655,383,824

NOTE: The above assets are at cost value.
